Celebration Quilts

Join with us to create a series of CPCRN Celebration Cairn Quilts this year to help in fundraising for our rescue efforts. These quilts will be in groups of 4, 6, and 12 blocks created by those who want to help, and will be assembled and quilted by crafting members of CPCRN. Of course, anyone who wants to create an entire quilt is more than welcome, but even a single block will move us toward our goal.

The rules follow:

1. Finished block size will be 8 inches. We would prefer you send us 9 inch quilt block to allow us to cut them perfectly square and still have room for the seam. You need to be sure your 'design' is in the 8 inch center area of your block.
2. Blocks can be ANY form of quilting: pieced, applique, fabric dye or paint and background color can be ANY color - just realize that if you use NEON ORANGE or HOT PINK, we will have to wait until we get

square. Last time we did this, we had a wide variety of methods .. it was lovely.

OTHER squares that match up to it to use it. Feel free to add embellishments like ribbons or buttons as decorations to give each square a unique look.

3. The subject is CAIRNS.... and the theme is WHY WE LOVE OUR CAIRNS. . So they can be doing anything you want... Please have at least one cairn or cairn like dog, even if only in silhouette, on your square. Silhouettes on last page. These blocks can be decorated any way you wish as long as it something in it resembles a cairn and fits on a 8"

4. Please use 100% cotton fabric for your square. This way we will all have the same fabric in it. If something on your square is NOT washable, please attach a note to the square.
5. Please sign your square with a permanent pen, then iron the signature with a dry iron. This will permanently set it in place.
6. When you are ready to mail us your square, send an email to CelebrateCPCRN@yahoo.com, then mail it to:

**CPCRN Celebration Quilt Blocks,
% Corinne Herron,
8053 Round Moon Cir,
Jessup MD 20794**

7. Once we receive the squares, we will match them up with other squares and have OUR quilters assemble the quilt tops, add batting and complete the quilt. We will then sell them either on Ebay or at our CRAPs, or we will include them as prizes in our New Leash Raffles.

Thanks for participating.. oh and if you know someone not a member who might want to help... feel free to pass on. This will be an ongoing fundraising project for this year, so you can not be too early or to late!

PLEASE NOTE- These squares are being requested specifically for fundraising efforts for CPCRN. By sending a square, you are giving CPCRN permission to use them in our fundraising efforts - both in quilts, and using their image in other media - for example. . on our website, or as a background for a hand crafted card, or even as a picture for our Cafe Press Store. We truly appreciate your help in our fundraising activities.

If you do not sew, you can still participate... Here's two ways (or email us at CelebrateCPCRN@yahoo.com, and we'll talk you thru)

1st method:

Go to a fabric store and get one 'FAT QUARTER' of a background fabric (if you don't know what a 'FAT QUARTER' is, ask, and they will be glad to help).. and a 'FAT QUARTER' of a fabric you like for your cairn. You will also need to get some 'WUNDER UNDER' - it is a fabric that has iron on glue on BOTH sides, one side has a paper back. Cut your background fabric into the right size squares per above. Iron the Wunder Under onto the BACK of the print fabric - LEAVE THE PAPER ATTACHED. Print out a cairn

silhouette and glue to the backing of the wunder under. Cut your print fabric into the cairn shape ... Remove the paper and iron it onto the FRONT of your white/ivory fabric. Voila - square is done (I suggest you put a piece of wax paper between the print fabric and your iron so you don't get glue on it... quilter hint)

2nd method:

Go to a fabric store and get one 'FAT QUARTER' of a background fabric ..

Get some Fabric paint that is PERMANENT. (very important tip.. make sure is permanent)

Paint a picture of a cairn on your fabric... this is easier than it looks cause they lead themselves to the scribble method of drawing...

Please be sure to keep within the center 8 inches of the block

Just a note, one Fat Quarter of Background Material, will give you enough background for 4 blocks!

And if you need pictures of cairns for inspiration, check out http://mall.cairnrescue.com/yb_current.htm - our Faces of Rescue
